

DIAPHRAGM AIR PUMP SELECTION GUIDE

ZHEJIANG LIGAO PUMP TECHNOLOGY CO.,LTD

www.ligaopumps.com

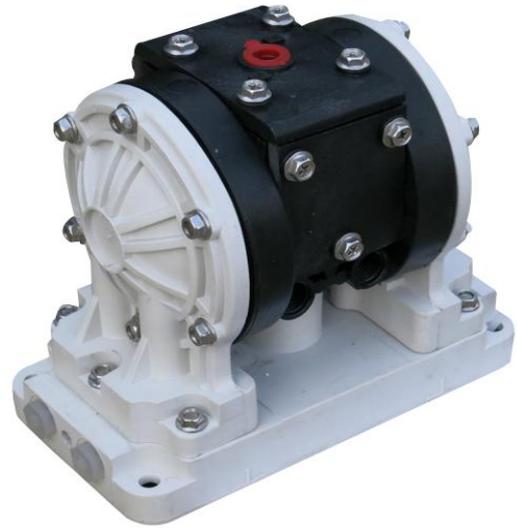

Advantages

1. The lubrication of air pressure chamber can be omitted, and it adopts patented air valve, with excellent abrasion resistance.
2. Air pressure is anodized, and covered by epoxy coating, with good corrosion, and suitable for high pollution situation.
3. All parts can be replaced in the situation of not opening the liquid chamber.
4. The material of central axis is stainless steel, with good anti-corrosion.
5. The material of aluminum is anodized.
6. Low pressure, slowdown and no getting stuck.
7. Special material of valve ball, with perfect craft, and good self-priming ability.
8. The service life of diaphragm is 1/3—1/2 higher than other manufacturer.
9. One reversing valve is suitable for pumps with a variety of specification and easy to maintenance and replace.
10. The side discharge can avoid the corrosion of air valve caused by liquid drop.

JQ06 Plastic Pump (PP Acetal PVDF)

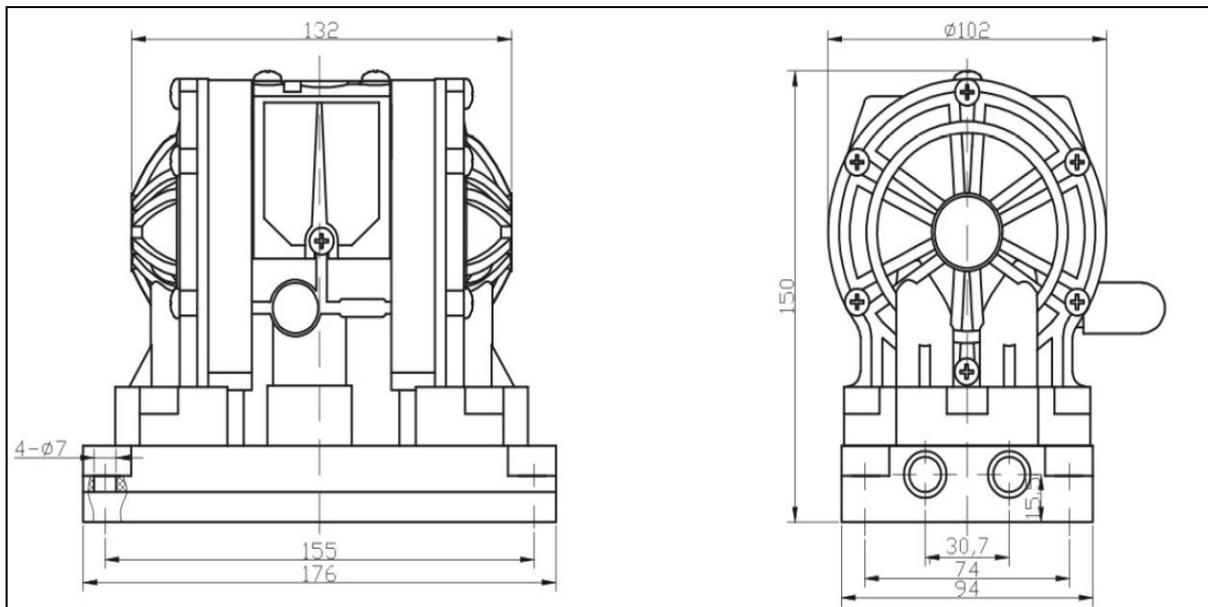

Technical Parameters

max. working pressure	100psi(0.7Mpa.7bar)
max.flow rate	17lpm (1.02m³/h)
max.suction height	3m
max. permiffed grain	0.5mm
air inlet size	1/4in.npt(f)1/4in.bsp(f)
fluid inlet/outlet size	1/4in.npt(f)bsp(f)
weight	Acetal pump 1.1kg

Performance Curve

Installation Size Map

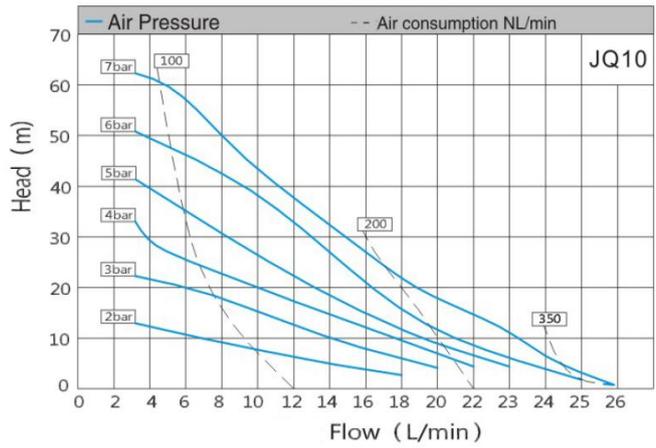

JQ10 Plastic Pump (PP Acetal PVDF)

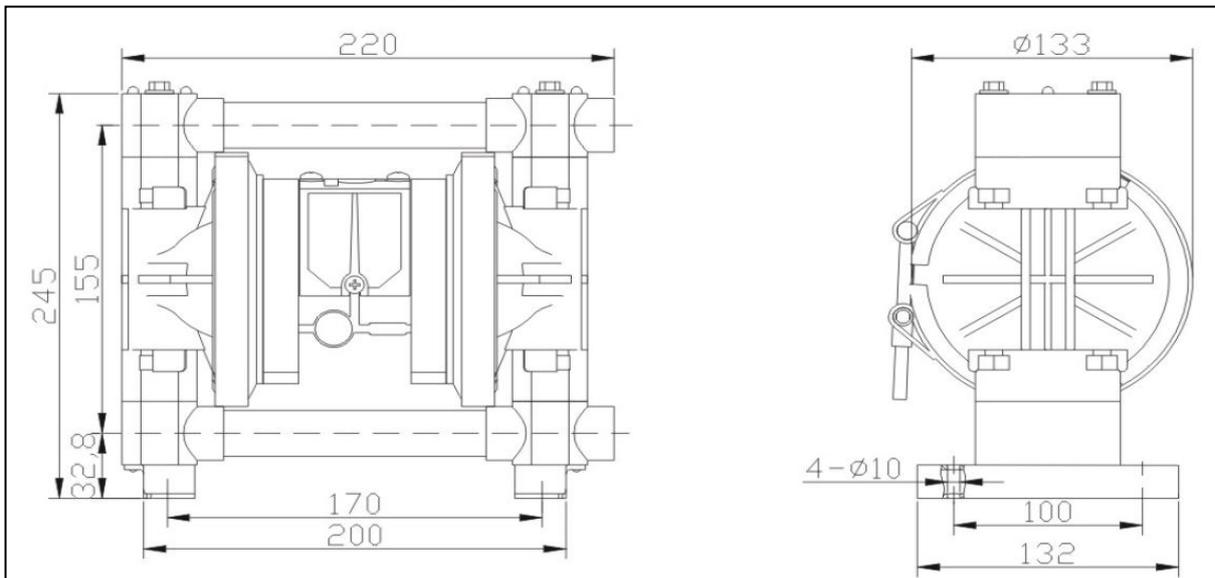

Technical Parameters

max. working pressure	100psi(0.7Mpa,7bar)
max.flow rate	26 lpm (1.56 m³/h)
max.suction height	3m
max. permiffed grain	0.5mm
air inlet size	1/4in.npt(f)1/4in.bsp(f)
fluid inlet/outlet size	1/4in.npt(f)bsp(f)
weight	Acetal pump 1.1kg

Performance Curve

Installation Size Map

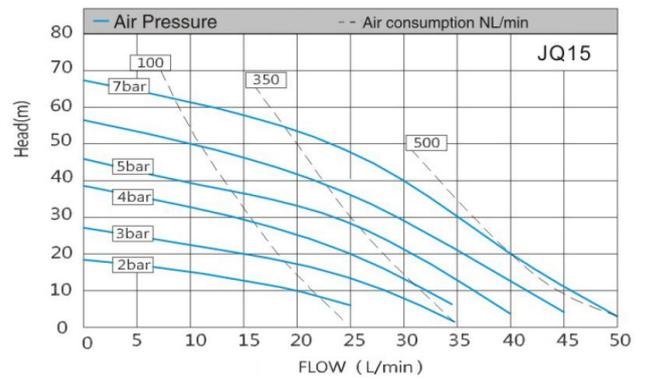

JQ15 Plastic Pump (PP Acetal PVDF)

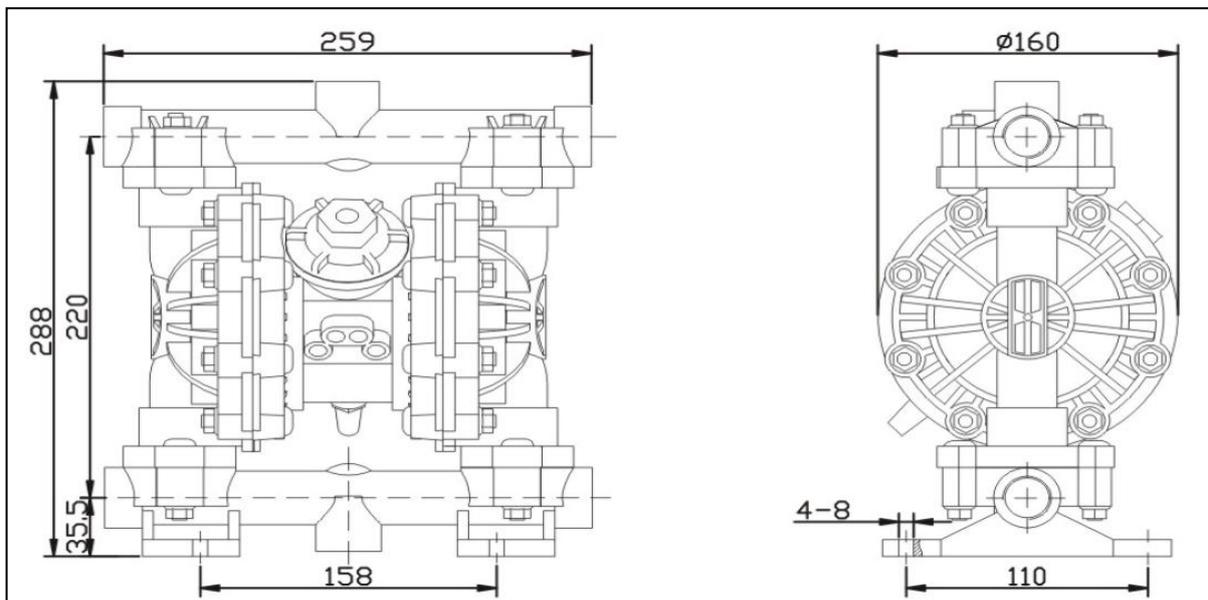

Technical Parameters

max. working pressure	100psi(0.7Mpa.7bar)
max.flow rate	50lpm (3.0 m ³ /h)
max.suction height	4 m
max. permiffed grain	2.5 mm
air inlet size	1/4 in
fluid inlet/outlet size	1/2 3/4
weight	PVDF Pump 3.7kg PP Pump 4.5 kg

Performance Curve

Installation Size Map

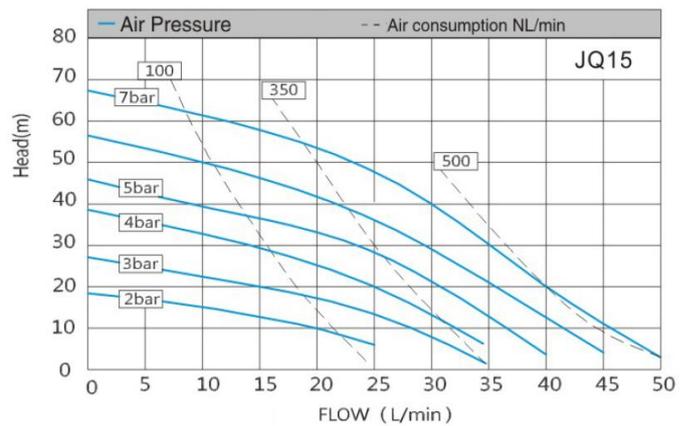

JQ15 Metal Pump (AL SST)

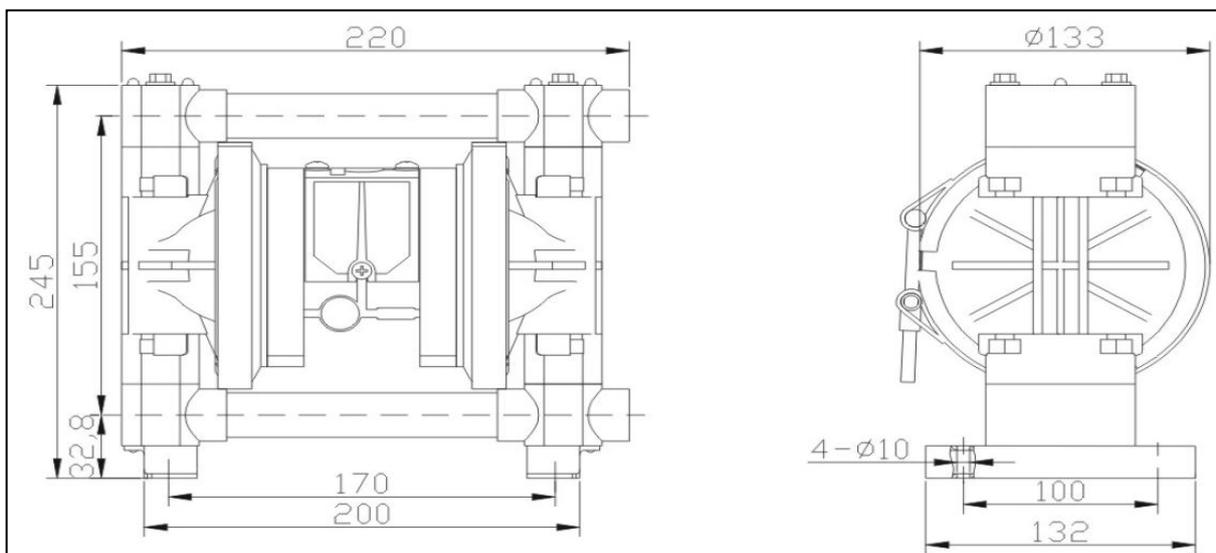

Technical Parameters

max. working pressure	100psi(0.7Mpa.7bar)
max.flow rate	50lpm (3.0 m³/h)
max.suction height	4 m
max. permiffed grain	2.5 mm
air inlet size	1/4 in
fluid inlet/outlet size	1/2 3/4
weight	SS Pump 6.8kg Acetal pump 34.4 kg
